## About This Content

The Revolution II Unit Pack contains sixteen models with all new animations. Historically authentic and “what if” modeled units are featured in the Age of Revolution. Enhance your game’s atmosphere with these musket, sabre, shako, and backpack equipped units. The common Eastern units have also been embellished for this period.

## Includes Units For

- Saxony
- Russia
- Switzerland
- Italy
- Poland
- Bavaria
- Naples
- Brunswick
- Sicily
- Hanover
- Hesse
- Germany
- Oldenburg
- Holy Roman Empire

- 
- Common Eastern Units

**DirectX®:**9.0

**Hard Drive:**2 GB HD space

**Sound:**Direct X-compatible sound card

**Additional:**3-button mouse, keyboard, speakers, Internet connection for multiplayer

English,German

---

Very good sequel to the WW series. Was in tears, joy, and felt very sentimental reading this. Get your tissues people. You are in for a long ride.. Great game, but **broken online play**.

I've lost count now of the number of games I've "lost" on both PC and iOS when the game can't contact the server, or some similar network issue happens. From the player perspective, you're waiting to be told it's your turn next. 5 minutes elapses without an error. You go back to the lobby and find you lost your game, presumably because your turn timed out without warning.

This drives me nuts!!

Seeing as how online gameplay is the single killer feature worth paying for, it's really not good enough for it to be so unreliable. At the very least if something stops the game from updating the cards from the server it should put the game on hold until you re-establish contact.. Games says "NOT ALLOWED" to remap (the Number Keypad [for Left-Handed])..... to be able to move around (where W,A,S,D, for most leftys has been Numpad 8,4,5,6 FOR AROUND 20 YEARS.

Why are there still many code spastics who still dont understand the basics of over 10% of customer requirements?

So, until or unless there is a Dev-orientates solution, it can shove its head up its dark brown clinker place.. This game is awesome. It's hard enough to give you a proper challenge but not impossible.

One minus point for the randomness of the physics simulation, sometimes finishing a level is just a matter of doing the simulation again and again until stuff works.. 4/10 got it for free, i think. Little Collection of (really) short Storys. The main target audience are children i guess but if you love the artstyle of the Shelter-Games you will love this little collection aswell.

Worth a buy? If you really love the Shelter games, yes. If you like short storys with a lovely Artstyle, sure but you might want to buy it when its on sale (like i did)

---

Highly recommended. Suggestion: Anyone who finds revisiting substantially older games enjoyable should check out Magic Carpet 1 & 2. Playing around with those old gems will truly affect your appreciation for this Early Access, and should spark your imagination as to what this game could accomplish. My hats off to the developer for choosing one of my most memorable childhood favorites as inspiration. Can't wait to see the endgame.. Great puzzle game for the price (less than a dollar). 60 levels that aren't too easy or too challenging. Very fun and relaxing but the last 5 puzzles actually get kinda difficult. Highly recommend.. Fun game but don't expect to be hooked forever. If you want a fun retro experience then this would be good for you!. I don't really read nor speak Chinese but i wanted the developers to be happy I honestly feel you because i've been through there the feeling of rejection... anyways i am looking forward to play the English version of this game to really show our support for you guys. I wish you good luck in the future and i hope you will find love soon. Interesting mini-game, very cute and entertaining soundtrack, but why the small resolution ?. **DO NOT GET FOOLED BY THE TRAILER, THE GAME IS NOTHING LIKE IT!**  
**STAY AWAY FROM THIS GAME! DO NOT EVEN THINK TO BUY THIS ON SALE!**

This game is an utter disgrace. The "gunplay" is ridiculous, guns feel weak, melee is just crap. Enemies won't spawn after a while, leaving you on an empty map with nothing to do, but killing yourself. Your character's walk speed is like that of a snail, you can't run and jump. Your ammo depletes quite fast as the zombies are bullet sponges. Iron sights are crap and it locks you sometimes in your iron sights, making you spam your right mouse button to quit them.

Watching a 5 note getting flushed down the toilet is much more entertaining than this game.

If you want a fun arena shooter for 5 grab Devil Daggers or Super Kinky  
If you want a fun wave based shooter, get Killing Floor or Killing Floor 2. goat has had a hard life. gravity has really had an effect since since the goat escaped.. The value for money is horrible, ithe dlc contains a single mission and a building. Would have been fine if they released it for a buck, but not more.. didnt save when i got off to eat. waste of money. This game is so hard. Think of a cross between the iOS game, Temple Run, and Super Hexagon.

Have fun wanting to smash your computer!
